4. Public Comment.

a. George Caldwell: I am George Caldwell. I live at 830 Knollwood Drive. I came tonight to ask council to look into the firing of your Interim PW Director, Mr. Charles Kirksey. He was suspended for three days and was told to sign a grievance. If he didn’t, after three days’ suspension, they would talk to him later about termination. He was emailed about termination. That is not right. The man has been working here 26 years, ever since he got out of high school.

Don’t drag him through the mud because a trailer is missing. He may have borrowed a trailer several months ago with permission from the former Public Works Director. You don’t do people like that. He was treated like a criminal. Anything that is not in a personnel manual cannot be forced on an employee. That is federal law. Mr. Kirksey is a nice guy. I helped raise him. I live in the City of Mauldin and he does too. I ask you to look into this. It is not right.

If you have a problem with PW, take care of. If you don’t want Charles to have the job, be man enough to tell him. Don’t just degrade him. I know he doesn’t have a college education. But he has been here 16 years. That’s not right. I hope you can look into this and reinstate him. Just don’t throw people out like that. At least, the administrator should have at least called him and told him, you know, I am going to terminate you. That’s not right. You know it is not right. You are treating him like a criminal. This is a personnel matter. Nothing was stolen. The personnel department should have investigated instead of the police department. They took him into a room and interrogated him without reading him his rights. You violated the man’s rights. You can’t do that. That is against the law. If you aren’t going to go by your own personnel policy, why do you have it? That is uncalled for. I know what type of person he is. I appreciate your time. There are a lot of things I can’t or won’t say, because this may go to court. Thank you for your time.
