

Sanitation Route Changes – Frequently Asked Questions

October 2026

What's happening to the sanitation routes?

Starting in 2027, sanitation routes on Tuesday through Friday will be changing (all routes on Monday will stay the same). As a result, roughly 20 percent of the households in Mauldin will have a new pickup day for trash and recycling.

How do I know if my pickup day is changing?

If your pickup day is changing, you'll receive a door hanger in early November and early December that indicates your new pickup day. Here's what the door hanger looks like:

You can also view the following resources to confirm your pickup day:

- Map: <https://arcg.is/1y8a9r2>

When do the new sanitation routes go into effect?

The new routes go into effect on Monday, January 11.

Does my new pickup day apply to both trash and recycling?

Yes, if your pickup day is changing, both trash and recycling will be picked up on your new day.

I didn't receive a door hanger. Does this mean my pickup day isn't changing?

That's correct. If you didn't receive a door hanger, that means your pickup day for trash and recycling is staying the same. You can also view the following resources to confirm your pickup day:

Why is the Public Works department making these changes?

Public Works is making these changes to increase efficiency as the city grows and additional sanitation routes continue to be added. The reorganized routes ensure that all trash trucks are clustered in a specific region of the city each day, so drivers don't waste time or fuel traveling from one side of the city to the other.

Who can I contact with questions?

If you have any questions, please call Public Works at (864) 289-8904 or email mauldinpublicworks@mauldincitysc.com.

THANK YOU!
