Year End Report

The Sanitation department picked up the most trash ever last year. It is equivalent to running all trucks for an extra month. There was also a huge spike in brush pickup.

The Street department maintains 5 more miles of streets than last year. Road paving and crack filling work continues which improves the overall PCI score of the road.

The Sewer Department has an overall goal of 2.5 times more than the EPA requirement for maintenance, manhole work and sewer debris cleanup.

Fleet maintenance work has increased with more City vehicles, especially police cars, being purchased.

Parks Maintenance has worked to beautify City building grounds.

Councilwoman King said it is amazing what Public Works employees do. The citizens do not usually notice because the department works behind the scenes.

Councilman Reynolds said he appreciates public works. He believes Council needs to do a better job communicating to residents how much work is accomplished by the department and the sacrifices they make to get the job done.

5. Unfinished Business- There is no unfinished business.

6. New Business- There is no new business.

7. Public Comment- None

8. Committee Concerns- None

9. Adjournment- Chairman Kraeling adjourned the meeting at 7:00 p.m.

Respectfully Submitted,
Cindy Miller
Municipal Clerk
